WHAT WE DO?

YOUTH ENGINEER

CCTV Surveillance + Computer Hardware & Networking:-

You must ensure that the CCTV is installed at the right place to get the most out of it. CCTVs are one of the best and the most effective measures, you must get one if you have not done so already. We install a CCTV camera in residential and commercial areas as per the requirement.

Centralised WIFI:-

One of the biggest advantages of centralization is the cost associated with it. Any centralized network or infrastructure requires less support and cost. Here are the key benefits of Managed Wi-Fi
1. Ease of Business
2. Dynamic scalability
3. Highly secure
4. Complete visibility
5. Enhanced user experience.

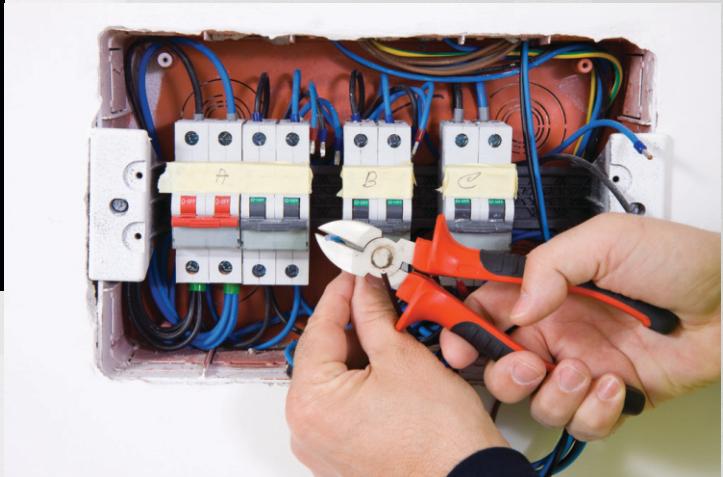

Biometric:-

A biometric device is a security identification and authentication device. Such devices use automated methods of verifying or recognising the identity of a living person based on a physiological or behavioral characteristic include fingerprints biometric device.

Electric Work:-

Electric work performing or carrying out on an electrical installing, altering, maintaining, or extending an electrical wiring system and the appurtenances, apparatus, or equipment used in connection in or on, outside, or attached to a building, residence, structure, property, or premises & maintenance of all electrical equipment.

Mobile Signal Booster:-

Mobile signal boosters are devices that provide strength to a weak signal by amplifying the carrier frequency signal. Due to the presence of numerous dead spots where there is no signal or very poor signal, mobile signal boosters help wireless network providers to improve coverage in such areas.

EPBX & Intercom:-

EPBX or epbax is electronic private branch automatic exchange. It is largely used in all types of organisations and offices that contain a number of phones. This helps the staff to talk among themselves free of cost

Intercom is a Conversational Relationship Platform. It shows you who is using your product or website and makes it easy to personally communicate with them with targeted content, behavior-driven messages, and conversational support.

YOUTH TECHNOLOGY

Mobile App Development:-

Mobile app development is the creation of software intended to run on mobile devices and optimized to take advantage of those products' unique features and hardware. We Develop Mobile Applications on Cross Platform (ANDRIOD & IOS).

Web Development:-

Web development is the work involved in developing a Web site for the Internet or an intranet. Web development can range from developing a simple single static page of plain text to complex Web-based Internet applications, electronic businesses, and social network services.

Digital Marketing:-

Digital marketing is the component of marketing that utilizes internet and online based digital technologies such as desktop computers, mobile phones and other digital media and platforms to promote products and services.

Graphic Designing:-

Graphic design is a craft where professionals create visual content to communicate messages. It includes LOGO designing and company profiling.

How is our service:-

In fact, delivering excellent customer service is one of company values: Our purpose is simple: to live and deliver WOW."

Our team provide professional and high-quality customer service.

We listen to customers that results in an indebted and happy customer, it can also go a long way in terms of keeping yourself on their radar for future business.

We Think long term when dealing with customers. By keeping customers happy, they will be loyal and through word of mouth, will do the marketing for you.

According to us the Customer service is an impact on both existing customers and potential customers.

What we focus on:-

We focus on Delivering customer requirements on time/ before which becomes our service provider more powerful.

What we deliver?

CCTVs, Computer, Centralised WIFI, Biometric Machine, EPBX & Intercom, Mobile signal boosters, electric work, Web Development, Mobile App Development , Graphic Designing,.

How we work?

We work on team collaboration, Which is the best part of company.

HOW Deals with B2B & B2C?

B2B (also known as business-to-business) marketing focuses on logical process-driven purchasing decisions, while B2C (also known as business-to-consumer) marketing focuses on emotion-driven purchasing decisions.
